رؤية
VISION
2030

المملكة العربية السعودية
KINGDOM OF SAUDI ARABIA

About Us

Contracting and solar energy institution, we have a history of successful projects with more than 10 years of experience in completing projects ranging from retail , Commercial, office and residential projects.

SUSTAINABILITY

Our team is dedicated to positively impacting our society. We dedicate the experience of the Saudi Elat team to be a positive influence on our society through the execution of projects that enhance the Quality of life, and bring valuable contribution to the sustainable economic growth of the Kingdom of Saudi Arabia.

FLEXIBILITY

Construction is quite a diverse sector where in the client needs, requirements and challenges may be widely variable. At RTT we recognize how important it is to be flexible and

INNOVATION & EXCELLENCE

We work at RTT to be at the fore front of companies providing construction and building services, by following systems and processes that provide innovative and distinctive solutions that keep pace with development and growth in the field of business. We spare no efforts in staying ahead of the game and providing value to our clients.

COMMITMENT

We strive to achieve full compliance with all pledges and agreements we take. As well as adherence to all laws, regulations and decisions issued by the authorities regulating and supervising the sector in the Kingdom

OUR MISSION

By creating a successful partnership with our clients, we make sure to add value to our company by providing high quality construction, technical and management services, we are able to provide comprehensive solutions in our field.

OUR VISSION

-To invest our years of collective experience to build a unique and sustainable environment for future growth.

-Be one of the leading companies in the field of construction through innovative projects. Solutions for various products

OUR SERVICES

Our services include general contracting, consultancy, major commissioning projects, interior and architectural design, furniture production & supply, construction & commissioning, operations and maintenance and retail store fit-out.

OUR SERVICES

RTT offers engineering design, Bill of Materials preparation, Pricing, Analysis, Technical support, Execution & construction supervision services in the following disciplines:

Electrical Works - Light current Works - Outdoor & Street Lighting - L.V & M.V Panels - Cable Routing (L.V & M.V)
HVAC - Fire Fighting - Utility systems - Plumbing
Medical Gases

SOLAR ENERGY DIVISION

We are a leading provider of innovative solar power solutions, dedicated to harnessing the sun's energy to create a sustainable and brighter future. We specialize in designing, installing, and maintaining high-efficiency solar systems for residential, commercial, and industrial clients. Our mission is to empower individuals and businesses to reduce their carbon footprint, achieve energy independence, and realize significant cost savings through clean, renewable energy. With a commitment to quality, integrity, and customer satisfaction, we deliver tailored solar solutions that meet the unique needs of each project, from initial consultation to long-term performance monitoring. Join us in the transition to a cleaner, more sustainable world powered by the sun.

Civil Works

The Civil Works division is the backbone of our construction capabilities, focused on the design and execution of critical infrastructure projects. We provide comprehensive services from initial site analysis and geotechnical surveys to the final completion of complex earthwork and structural components. Our services include:

Earthworks & Site Preparation: Mass excavation, grading, land leveling, and soil stabilization to prepare sites for vertical construction.

Infrastructure Development: Construction of roads, highways, and access ways, including paving, curbing, and sidewalk installation.

Drainage & Stormwater Management: Implementation of effective drainage systems, culverts, retention ponds, and sewer lines to manage water flow and prevent erosion.

Structural Elements: Building foundations, retaining walls, bridges, and other structural components that require specialized civil engineering expertise.

We are committed to delivering durable, efficient, and environmentally responsible civil solutions that support the long-term success of our projects.

Finishing Works

The final phase of any project, finishing works, is where our commitment to excellence is most visible. This stage involves the meticulous installation of all components that shape the final look and feel of a space. Our services include:

Interior Finishes: Installation of flooring (tile, wood, carpet), drywall, plastering, and sophisticated painting techniques.

Exterior Finishes: Application of exterior cladding, facade systems, and specialized coatings for durability and aesthetic appeal.

Carpentry & Joinery: Custom and standard woodwork for doors, windows, cabinetry, and trim.

Fixtures & Fittings: Expert installation of sanitary ware, electrical fittings, and other essential fixtures.

We manage this critical phase with a keen eye for detail and a focus on integrating all elements seamlessly to achieve a flawless result.

OPERATION AND MAINTENANCE

- Our Service operations play a crucial role in creating value for our customers.
- Effective service operations not only benefit customers but also contribute to an organization's long-term success.
- Green Flash Internal operations focus on efficiency and cost-effectiveness in producing goods or services.
- Green Flash Service operations, on the other hand, prioritize quality and customer satisfaction.
- Designing processes to meet both customer and internal staff needs creates a competitive advantage and improves results.
- Our Roles and Responsibilities in Service Operations
 - Collecting Customer Feedback
 - Supporting Frontline Staff

MEP BIM SERVICES PROVIDER

RTT offers full-service solutions for all your MEP Building Information Modeling (BIM) with competitive pricing and ensure shorter turnaround time with the highest accuracy.

WE OFFER THE FOLLOWING MEP BIM MODELLING SERVICES

Preparing 2D design drawing

Preparing 3D design drawing

Preparing shop drawings

Detecting and solving clashes

Construction documents.

HVAC WORKS

- Equipment piping sizing
- HAP Calculation
- design plan drawings
- Drafting services for HVAC system construction plan drawings: Details, schematics, elevation drawings, schedules, legends,, equipment specifications, and control diagrams
- Mechanical equipment layouts
- Technical offers & submittals
- Shop drawings & coordination drawings
- As-built drawings
- supply and installation diverse air conditioning systems such as VRF system, Dx ducted units, Air handlers and chilled water system
- supply and installation Galvanized Air Ducts with all required accessories
- supply and installation refrigerant copper pipes
- supply and installation chilled water pipes
- supply and installation ventilation and exhaust fans

FIRE FIGHTING WORKS

- Standpipe and Hose Systems
- Automatic water firefighting systems (Sprinkler Systems).
- Clean Agent Fire Extinguishing Systems.
- Carbon Dioxide & FM200 Extinguishing Systems.
- Firefighting pump stations.
- Foam System.
- Drafting services for Medical gas systems
- Details, legends & specifications
- Shop drawings and coordination
- As-builts drawings

PLUMBING WORKS

- Plumbing and drainage works
- Equipment schedule
- Demolition and existing plan drawings
- Drafting services for domestic water plumbing
- Shop drawings and coordination
- As-builts drawings
- Details, legends & specifications
- Natural and LP gas works
- Locate and coordinate pipe requirements
- Isometrics, Riser diagrams, details, schematics and schedules
- Sleeve / Penetration Drawings

MEDICAL GASES

- Equipment schedule
- Compressed air and medical gas system drawings
- Drafting services for Medical gas systems
- Details, legends & specifications
- Shop drawings and coordination
- As-builts drawings

رواد الطاقة والتعمير
ENERGY & CONSTRUCTION

ELECTRICAL WORKS

- Electrical Plans such as:
Lighting - Power - Ac power - Earthing
Street lighting works & Cable Layouts.
- Electrical calculation: Load calculation, Voltage drop, short circuit, Transformer & Generator selection.
- Electrical schematics, Detans, legends & specifications
- Shopdrawings & Coordination with all systems
- As built drawings

ANALYSIS

Forecasting People, resources, tools, trends, and future needs.
Analysing Key Metrics and Measuring utilization

EXECUTION

Preparing detailed shop drawings, according to tender documents and evaluating design drawings and calculations concerning site condition and contract scope

Assigning and managing the working and the supervision team

Coordinating People and resources, and monitoring the overall performance

Managing manufacturing orders, procurement, site deliveries, and storage

Directing and managing project execution Managing - - - stakeholder's inquiries, revisions, and requests for additional work

Applying quality and performance assurance procedures

DESIGN AND ENGINEERING

RTT provides a free floor slab design & shop drawings for your project using our exclusive steel fiber accredited value engineering program that will utilize and optimize the best slab thickness and the steel fiber dosage recommended.

LIGHT CURRENT WORKS

- Light current systems drawings:

Fire alarm system

telephone system

data system

sound system

clock system

CCTV system

nurse call system Access control system

Intercom system intrusion detection system

- Light Current Riser Diagrams

- Technical offers & submittals

- Details, legends & specifications

- Quantity survey & Bill of Quantity Preparation

- Shop drawings & Coordination with all systems

- Asbuilt drawings

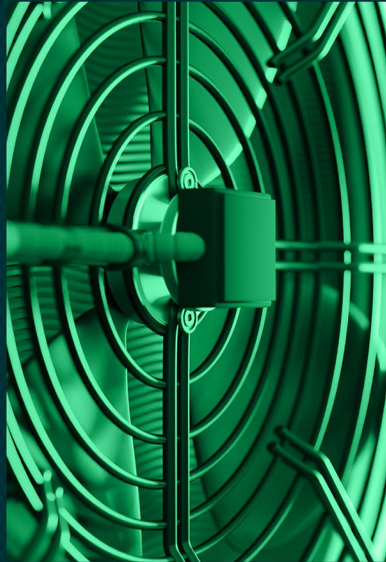

VENTILATION

- Axial Fan
- Centrifugal Fan
- Mixed Flow Duct Fan
- Wall-Mounted Propeller Fan
- Jet Fan

HVAC SYSTEMS

HVAC is an abbreviation for heating, ventilation, and air conditioning system. An HVAC system is necessary to ensure proper air circulation in any building, essential for comfortable breathing and human functioning. green flash is the most reliable name in the KSA construction sector to offer high-quality HVAC services.

SEWAGE UTILITIES

- 1- Sewage Treatment plants: All Civil works & Electro mechanical work for any type of treatment process up to starting & commissioning.
- 2- Sewage lift stations: All Civil works & Electro mechanical work up to starting & commissioning.
- 3- Sewage Networks by any piping material required (UPVC, GRP, etc.) with all manholes and leak tests.
- 4- All Types of pressurized pipe lines (UPVC, GRP, HDPE, D.I, etc.) with all fitting, thrust blocks, Valve chambers & pressure test.

POTABLE WATER & IRRIGATION UTILITIES

- 1- Potable water Storage tanks (GLS, Steel and concrete).
- 2- Water pump stations (Civil works, Piping, Pumps, Electro mechanical (work) up to starting & commissioning.
- 3- All Types of pipe lines (UPVC, GRP, RTR, HDPE, D.I, etc.) with all fitting, thrust blocks & pressure test with cleaning and chlorination.
- 4- All Mechanical Items such as Isolation valves, washout valves, Air release valves & flow meters with all chambers and needed accessories.

STORM WATER UTILITIES

- 1- Storm water Pump stations (Civil works, Piping, Pumps, Electro mechanical work) up to starting & commissioning.
- 2- Storm water ponds (Earthworks, Concrete works, Piping works).
- 3- Open channel drainage systems.
- 4- Box conduit drainage systems.
- 5- Pipe culvert work (Concrete work & piping works).
- 6- Storm water piping Networks by any piping material required (UPVC, GRP, etc.) with all Manholes and leak tests.
- 7- Catch basin drainage system (piping & concrete work).
- 8- Slow down chambers (piping & concrete work).

FIRE FIGHTING SYSTEMS

From project planning to execution and maintenance green flash stays committed to its customers. We offer unparalleled and flawless fire alarm systems and fire protection systems to ensure fire safety. We extend our services to the private, government, and semigovernment sector.

ELECTRICAL SYSTEMS

RTT Company's electrical team is the best in providing all aspects of electrical work to our clients including, street lighting, power station, building technology transmission system, substation telecommunication and control system

MEDICAL GAS SYSTEMS

Ensuring the proper functioning of the Medical Gas Pipeline System is absolutely vital for any healthcare facility, as it supplies essential medical gases that are necessary for patient ventilation and a wide range of clinical applications.

LIGHT CURRENT NETWORKS

Our team of highly skilled expert engineers here at green flash ensures the careful installation of low-current systems, guaranteeing optimal functionality. With years of experience under their belts, our team is equipped with the knowledge and expertise necessary to efficiently install lowcurrent systems. We also take the time to educate

our customers on the system's functions, ensuring ease of operation.

COMMERCIAL & ADMIN BUILDINGS

RTT Commercial projects are a large part of the company's workload. We have experience working in sensitive situations providing a service within occupied premises whilst minimising disruption to the end-user and occupants.

DATA CENTERS

RTT, our MEP design and engineering team has extensive experience in designing and building data centers that meet the unique needs of our clients. We understand the importance of reliability, efficiency, and scalability in data center design and construction.

BUILDINGS

RTT has experience in providing multiple solutions to the educational environment. We build educational facilities that inspire creativity and ingenuity.
Commercial & Admin Buildings

HOTELS

We have experience working in design and construction supervision of the electrical, HVAC, plumbing, fire protection, light current, GRMS, and communications systems

FACTORIES

All MEP works for processing, fillings & packing areas, as well as laboratories, stores & administration buildings. Work includes workshop drawings, supplies, Electrical & Mechanical equipment installation, and duct & piping networks.

SPORTS FACILITIES

All MEP works for processing, fillings & packing areas, as well as laboratories, stores & administration buildings. Work includes workshop drawings, supplies, Electrical & Mechanical equipment installation, and duct & piping networks.

HEALTHCARE & HOSPITALS

RTT is committed to meeting the highly specialized construction needs of hospitals and healthcare facilities. We provide space for a wide range of healthcare projects, including hospitals, ambulatory surgery centers, outpatient clinics, laboratories, assisted living and specialized facilities.

RESIDENTIAL

Our team has worked on numerous residential projects, from single-family homes to multi-unit apartments and condominiums. We have experience working with a variety of clients, including homeowners, developers, and builders.
